“Song of Songs” - the forgotten book of the Bible - Gods’ “sext message.” The only book of the Bible that never actually says the word “God.” Yet there’s still lots to learn from it. Ever noticed that the Church never talks about the “Song of Songs” or romantic relationships? Come hear what the Bible really says about sex, love and relationships. It’s time the Church started talking about the tough stuff and how it relates to the lives of young people. Come join us!

(Note: This is NOT an 8er’s Camp review weekend. 8er’s is great but this retreat will not be about sex education. It will focus on the song of Songs and how it relates to our lives.)
